Course Description:

Music is its own special language that you are about to begin to become fluent in! Rock Band will afford you the opportunity to delve deeply into listening to, discussing, and making music in meaningful ways. First, we will explore the basic elements of music such as: rhythm, melody, form, and texture. Next, through the lens of exploring music by decade and genre, we will learn either specific musical instruments and/or vocals, or how to engage with the music from a production standpoint.

We will also look at the music we play in conjunction with its cultural and social implications, and build our awareness of the sources of our musical preferences. By the end of this course, you will be well-versed in musical terms, and also have basic knowledge of how to play some percussive and melodic instruments!
